

# Data lake

## Definition

A data lake is a large, centralised [data storage](#) area for all types of data, in its original format.

## Note

A data lake makes it easy to explore and analyse data, even if it is unstructured.

## Relation

Data lake	is child of	<a href="#">data storage</a>	
Data lake	has subset	<code>data_management/data_mart</code>	<code>data mart]]</code>
