

Corrective action

Definition

Corrective action is an [action](#) to eliminate the cause of [data issues](#).

Relations

Corrective action	is a subtype of	action
Corrective action	is implemented in response to a	correction
Corrective action	prevents	data issues
Corrective action	eliminates the cause of	data issues
Corrective action	is closely related to	preventive action

Example

Implementing a [data quality rule](#) in which the address is derived from the zipcode instead of the user entering the address. This is an example of a corrective action. It prevents inconsistencies between zipcodes and addresses.
