

Data governance

Definition

Data governance is [governance](#) with regard to [data](#).

Notes

Other definitions are:

- Data governance is the cross-functional discipline of managing, improving, monitoring, maintaining, and protecting data (Askham).
- Data governance is the exercise of authority and control (planning, monitoring, and enforcement) over the management of data assets (DAMA-DMBOK, 2017).

Relation

Data governance is subtype of [governance](#).
