

OGSM-model

Definition

The OGSM-model is a strategic planning [framework](#).

Note

- OGSM stands for Objective-Goal-Strategy-Metric.
- Het OGSM-model ensures that objectives are linked to goals and actions.
- In the OGSM-model, an objective is long term and qualitative (words) and a goal short- to medium term and qualitative (numbers). In mainstream opinion, this is reversed.

Relations

OGSM-model	is subtype of	framework
OGSM-model	consists of	objectives
OGSM-model	consists of	goals
OGSM-model	consists of	strategies
OGSM-model	consists of	measures
OGSM-model	consists of	action
